

Software developer with hands-on experience in building applications from scratch, API integration, and debugging. Skilled in requirements gathering, process mapping, and delivering user-focused solutions. Strong background in stakeholder collaboration, documentation, process improvement, and Agile practices.

EXPERIENCE

Software Developer • Vision Swipe • Lahore, Pakistan (Remote)

Dec '24 – Present

- Developed and maintained applications using **JavaScript, TypeScript, React, and Next.js**, ensuring responsive and scalable user interfaces.
- Created and integrated **REST APIs**, debugged issues, and developed new functionality to support scalable applications.
- Designed and deployed **AI-powered chatbots and assistants** on multiple websites, enabling users to ask questions and receive instant support.
- Incorporated **AI-driven message interception systems** to ensure communications remained **compliant with platform policies**.
- Currently working on an **online pharmacy and marketplace platform**, enhancing both the **user-facing site** and **vendor dashboard** with new features and usability improvements.
- Ensured clean, maintainable code through **modular components**, rigorous testing with **Postman/ngrok**, and reliable deployment using **Docker**.
- Collaborated directly with **clients and end users** to gather requirements, integrate feedback, and deliver effective updates.
- Contributed to **backend development tasks**, strengthening understanding of full-stack workflows.

Process Audit-Intern • Confiz Limited • Lahore, Pakistan

Dec '24 – Sep '25

- Collaborated with **cross-functional teams** to **analyze** and **document processes**.
- Supported internal audit** for ISO standards: ISO 9001:2015 (Quality), ISO 14001:2015 (Environment), ISO 45001:2018 (Health & Safety),ISO 27001:2022 (Information Security), ISO 20000-1:2018 (IT Service Management).
- Supported external audit for ISO 45001:2018 (Health & Safety).
- Supported **audit lifecycle**: scheduling, coordination, execution, and **documentation of internal audits** across departments.
- Assisted in preparing audit plans, compiling audit findings, and tracking non-compliance follow-ups.
- Created and published audit and **diagnostic reports**; contributed to **action plans** and **compliance documentation**.
- Developed **automated workflows using Power Automate** to streamline routine audit and reporting tasks
- Facilitated team communication, supporting Project Excellence and compliance tracking.
- Collaborated on **process improvement initiatives**.
- Designed ISO training materials and coordinated training sessions across departments Maintained records of training attendance, feedback, and outcomes; supported post-training documentation.
- Learned **Sharepoint** and revamped the department's site.
- Contributed to **project management activities**, supporting planning, coordination, and execution of tasks
- Coordinated **project activities on Jira**, ensuring timely task completion and audit readiness.
- Actively learning and exploring **Generative AI** applications to enhance process optimization capabilities.
